

Curated Event Experiences Built *Around* The Music

DJs, live bands, and event production for weddings,
corporate events, and private celebrations.

*Talent and production are curated to fit your event, your space, and your energy —
never assigned at random.*

How High Life Works

A considered, music-first approach shaped by your event rather than a predetermined format.

01

We Start With Context

The room. The crowd. The moment.

Every event has a different energy.

We begin by understanding your venue, guest mix, timeline, and priorities. That way, every recommendation is made with context, not assumptions.

02

Talent Is Curated. Not Assigned.

Based on your music preferences and event goals, we curate DJs, musicians, or live bands that truly fit your crowd and event format.

The result is entertainment that feels natural, intentional, and aligned from start to finish.

03

Production Supports the Experience

Sound, lighting, and staging are designed to support the music and the natural flow of your event, enhancing the room without overpowering it.

Production is scaled intentionally based on the space and the moments that matter most.

04

Clear Planning. Seamless Execution.

From final timelines to on-site coordination, our focus is on smooth execution and clear communication, allowing you to remain present while we manage the details behind the scenes.

Our DJ Collective

Every High Life DJ is selected for musical range, professionalism, and the ability to read a room. Final DJ selection is curated based on your event.

HL Fusion

Live musicians are seamlessly integrated into the DJ experience, enhancing energy without overpowering the room.

DJ Fusion combines the precision and versatility of a DJ with the impact of live performance. Live musicians are woven directly into the flow of the music, enhancing key moments, building energy on the dance floor, and creating an experience that feels dynamic and immersive.

Every fusion setup is designed intentionally around your event's format, room, and crowd, ensuring nothing feels added at random.

Fusion Performance Elements

Fusion elements are introduced selectively based on the flow of the event, never applied by default.

Saxophone

A powerful melodic layer that amplifies high-energy moments and creates unforgettable dance floor peaks.

Percussion

Rhythmic live drums that drive momentum and elevate transitions without overwhelming the mix.

Electric Violin / Guitar

A versatile performance element that adds texture, movement, and visual impact across genres.

Each element is timed intentionally to elevate key moments and then pulled back when the room calls for it.

Always in service of the music

Live enhancements are introduced strategically during peak moments, transitions, or feature songs, and scaled back when the room calls for it.

Among our fusion options, **one performance** consistently stands out for its energy, versatility, and crowd impact.

Fire Sax

Fire Sax is a high-impact live saxophone performance that integrates controlled, choreographed fire elements directly into the DJ set. It is designed to feel intentional, elevated, and never random.

Fire Sax merges live saxophone with precisely timed bursts of flame, creating a visual and musical moment that is bold without overwhelming the experience. Rather than functioning as a standalone act, it is woven directly into the flow of the music and the room.

Introduced during peak dance floor moments, feature songs, or late-night transitions, Fire Sax creates a clear shift in momentum. It amplifies energy while maintaining control of the room.

Striking and interactive, it becomes a focal moment guests instinctively capture and one that keeps them engaged on the floor when timed correctly.

Fire Sax works because it's performed in service of the music. Introduced, featured, and pulled back based on the room in real time.

Live Bands & Musical Experiences

Curated band formats designed around your event's energy, space, and moment, ensuring the lineup feels intentional rather than one-size-fits-all.

Each band format is designed around interaction level, musical range, visual presence, and energy curve, then tailored to suit your event.

Whether the goal is a high-energy dance floor, a refined musical backdrop, or something in between, the band is selected to fit the room, not the other way around.

Interactive Party Bands

High-energy, vocal-forward, built for packed dance floors.

- Audience interaction
- Big singalong moments
- Flexible band sizes

Signature Bands:

- The Collective
- Midnight Anthem

Refined & Versatile Ensembles

Polished, musically rich, adaptable across the night.

- Cocktail → dinner → dancing
- Sophisticated tone
- Strong musical range

Signature Bands:

- Kingswell Trio
- Sterling Duo
- The Movement

Fusion & Hybrid Acts

Where live musicians and DJ performance blend seamlessly.

- DJ-driven pacing
- Live instrumentation layered in
- Club energy with live impact

Signature Bands:

- Golden Hour

Looking for something more tailored?

We also design custom ensembles beyond our signature formats.

*Live band pricing and configurations vary based on size, duration, and production requirements.
We'll guide you toward the right format during your consultation.*

Interactive Photo Experiences

Designed to create moments guests actually engage with.

Our interactive experiences are designed to integrate seamlessly into your event, enhancing the atmosphere without pulling focus from it.

Each format is selected based on guest flow, space, and energy, creating natural moments of engagement throughout the night rather than a single crowded focal point.

Modern Photo Booth Experiences

- Clean, editorial-style imagery
- Custom overlays & branding
- Studio-quality lighting
- Fast sharing + online gallery

Best for weddings, corporate events, and elevated social celebrations.

Branded & Interactive Moments

- Custom backdrops or environments
- Logo integration where appropriate
- Designed for social sharing & brand alignment

Designed for hospitality, launches, and brand-forward events.

Roaming & Open-Concept Capture

- Photographer-style interaction
- Candid, movement-based moments
- Blends into cocktail hour or dance floor

Ideal when you want candid documentation without a traditional booth footprint.

Not every experience is right for every event. We guide you toward the format that fits your **space, guest mix, and timeline.**

Content experience pricing varies based on format, duration, staffing, and customization.

We'll recommend the right approach during your consultation.

Audiovisual Production & Event Design

Sound, lighting, and staging are designed to support the music and the room, ensuring the experience feels balanced rather than overpowering.

Our production approach starts with flow, not fixtures.

Each system is scaled intentionally around the venue, timeline, and moments that matter most, supporting everything from subtle ambience to peak energy.

Sound Design

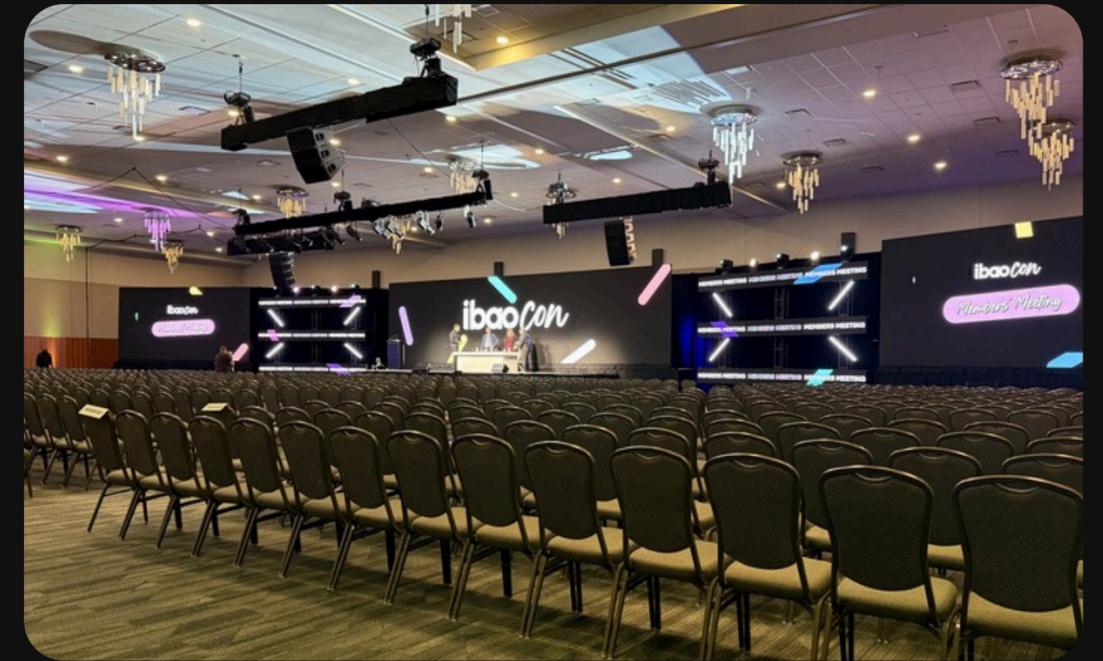

- Clear, balanced coverage
- Tuned for speech and music
- Scaled to the room — not a one-size rig

Lighting & Atmosphere

- Room uplighting
- Dance floor energy lighting
- Accent + architectural enhancement

Staging & Visuals

- DJ furniture & performance layouts
- LED elements where appropriate
- Clean sightlines and cable discipline

*Production requirements vary based on space, format, and scope.
We'll design the right solution during your consultation.*

Live Music

Starting Formats & Investment Ranges

Live music pricing varies based on ensemble size, performance flow, production requirements, and event format. The ranges below reflect common starting points, with final scope curated through consultation.

| | Talent Investment (from) | Talent + Production (from) | Option to scale back: | Option to scale up: |
|-------------------------------|-----------------------------|-------------------------------|--------------------------|------------------------|
| Solo / Instrumental Musicians | \$1,500 | \$2,000 | ✓ | ✓ |
| Vocalists | \$2,000 | \$2,500 | ✓ | ✓ |
| HL Fusion | \$3,195 | \$3,500 | ✓ | ✓ |
| Sterling Duo | \$3,700 | \$5,200 | ✓ | ✓ |
| Kingswell Trio | \$4,200 | \$6,500 | ✓ | ✓ |
| Golden Hour | \$3,500 | \$6,000 | ✓ | ✓ |
| The Movement | \$8,000 | <i>Scoped Per Event</i> | ✓ | ✓ |
| Midnight Anthem | \$5,000 | \$7,500 | ✓ | ✓ |
| The Collective | \$14,300 | \$20,000 | ✓ | ✓ |

Custom Ensembles Available

Beyond our signature bands, we design custom lineups with instrumentation, size, and performance flow tailored to your event.

Audiovisual Production & Event Design

Production is designed to support the room, the music, and the flow of your event, rather than sold as pre-set packages.

Investment varies based on venue, guest count, technical requirements, and creative goals.

Most production scopes are developed alongside entertainment and finalized through consultation.

For clients requiring production-only services, scopes are custom-built based on technical needs.

Common Production Scopes & Starting Investment

Support Production

Starting from 3-figures

Clean, professional audio and lighting designed to support the event without visual dominance.

Feature Production

Starting from 4-figures

Intentional lighting and production design that shapes atmosphere, highlights key moments, and elevates guest experience.

Large Scale Productions

Starting from 5-figures

Large-scale production environments designed for schedules, presenters, and complex event flow.

Interactive Photo & Content Moments

Photo experiences are typically added alongside entertainment or production and scoped based on guest flow, duration, and branding requirements.

Photo Experiences

Starting from \$1,000

Modern photo booth and roaming capture options designed for fast sharing, clean imagery, and natural guest engagement.

Branded & Interactive Moments

Starting from \$5,000

Custom-designed photo or content moments for brand activations, launches, and hospitality environments.

These ranges reflect common starting points. Final investment is confirmed after reviewing venue logistics, timeline, and event format to ensure the right build, scaled intentionally for the event.

Testimonials

Trusted by couples, brands, and organizations who care about experience, not just entertainment.

We recently booked them for our wedding and all our vendors said they've never seen so many people up on the dance floor! We were very specific with what we wanted from our DJ and the type of music we wanted to play. From the initial first meeting to the planning of the music, to executing it perfectly the day of the wedding! Aaron and Sean were amazing and we couldn't have asked for a better DJ service.

Brianna Mainprize
Bride

We hired High Life for our wedding that took place on December 10th, 2022. They really knocked it out of the park. They were so professional and everything ran so smoothly. If you are looking at any other company for DJs, stop, and hire High Life ASAP. I could not recommend them enough.

Ethan Krebs
Groom

Working With Aaron and all his crew at High life has been a huge Game changer for our Company! They have been our sole provider in terms of DJ, MC and technical work and we could not be happier with the result. The crew is incredibly adaptable and goes the extra mile to understand and research our brand, our needs and how to best cater to our thousands of Participants.

Nicolas Bertrand
Spartan Race

What impressed us most was how seamlessly they managed the entire process—always one step ahead, always calm under pressure, and always focused on delivering excellence. HighLife brought both expertise and heart to the table, which made a massive difference in pulling off such a successful event. We would recommend High Life over and over again.
